I'm a UI/UX & Product Designer with 4+ years of experience designing websites, mobile apps, dashboards, and digital products. I enjoy turning complex ideas into simple, user-friendly experiences through thoughtful design and collaboration. From research and wireframing to high-fidelity UI and design systems, I focus on creating products that are both visually appealing and easy to use.

Skills

Design Tools	UX Skills	Design Skills	Languages
Illustrator	User Research	Product Design	Conversational
Photoshop	Wireframing	UI Design	English and Hindi
Figma	Prototyping	UX Design	
Framer	User Flows	Interaction Design	
	Information Architecture	Responsive Design	

Experience

De. 2024-Present

Dintelects Solutions

At Dintellect Solutions, I design intuitive and user-centered digital products for web and mobile platforms. I collaborate closely with product managers, developers, and stakeholders to transform business requirements into seamless user experiences. My responsibilities include user research, wireframing, creating high-fidelity UI designs, building interactive prototypes, and maintaining scalable design systems. I also work alongside the development team to ensure pixel-perfect implementation and continuously improve product usability through user feedback and iterative design.

April 2023 - Oct 2024

Canopus Infosystems Pvt. Ltd.

During my time at Canopus Infosystems, I worked on a wide range of client projects, including responsive websites, mobile applications, dashboards, and enterprise solutions. I was responsible for understanding business goals, conducting UX research, designing user flows, creating wireframes, and delivering polished interface designs. I collaborated with cross-functional teams throughout the product lifecycle while maintaining design consistency through reusable components and ensuring smooth handoff to developers.

Jun 2022 - Mar 2023

Lise Infotech

At Lise Infotech, I worked on designing responsive websites and business solutions that balanced user needs with business goals. I collaborated with the business development and development teams to understand project requirements, create wireframes, and design clean, user-friendly interfaces. This role helped me build a strong foundation in user experience, visual design, and working closely with developers to bring ideas to life.

Aug 2019 - Jun2020

Dice Multimedia

At Dice Multimedia, I worked on branding, social media creatives, marketing materials, and website designs for clients across different industries. Alongside graphic design, I also contributed to UI design projects by creating modern, visually engaging interfaces and landing pages. Working on multiple projects in a fast-paced environment strengthened my creativity, attention to detail, and ability to deliver quality work within deadlines.

Projects

Probioma

- Key Achievements:** Designed a responsive healthcare e-commerce platform focused on microbiome wellness products. Improved product discovery, user journeys, and mobile shopping experience through intuitive UI and structured information architecture.
- Role:** UI/UX & Product Designer
- Technology:** Figma, Design System, Wireframing, Prototyping, Responsive Design

PJO

- **Key Achievements:** A flight management system with modules for Admin, Sub-admin, Airlines, and Users. The platform supports flight creation, booking, payments (Stripe, PayPal), and flight management (changes/cancellations) with an integrated API for mobile applications.
- **Role:** UI/UX & Product Designer
- **Technology:** Figma, Design System, Wireframing, Prototyping, Responsive Design

Wise Owl Medical

- **Key Achievements:** Designed a healthcare website with clean navigation, accessible layouts, and user-centered interfaces to improve service discovery and overall digital experience.
- **Role:** UI/UX & Product Designer
- **Technology:** Figma, Design System, Wireframing, Prototyping, Responsive Design

Probioma

- **Key Achievements:** Designed a modern healthcare website with a strong focus on usability, information architecture, and responsive user experiences, improving product presentation and overall accessibility.
- **Role:** UI/UX & Product Designer
- **Technology:** UI Design, Wireframing, Responsive Design, Prototyping

Barseen

- **Key Achievements:**Designed a complete mobile application for bar discovery, enabling users to explore venues, discover events, browse menus, and manage profiles through an intuitive and visually engaging interface. Also designed an admin dashboard to streamline bar management, user insights, and content management.
- **Role:** UI/UX & Product Designer
- **Technology:** Figma, User Research, Wireframing, Prototyping, Design System, Dashboard Design, Responsive Design

Edosma

- **Key Achievements:** Designed a complete educational platform, including a responsive website, mobile application, and admin dashboard. Focused on creating seamless user journeys, intuitive navigation, and scalable design systems to enhance the learning experience for students and administrators.
- **Role:** UI/UX Designer
- **Technology:** Figma, User Flow, Wireframing, Prototyping, Design System, Dashboard Design, Responsive Design

Key Achievements

Product Impact & Delivery

Designed scalable web and mobile experiences by combining UX strategy, visual design principles, and business requirements to create user-focused solutions.

Collaboration & Implementation

Partnered with developers and stakeholders to ensure accurate design execution, smooth handoff, and consistent product experiences.
